

LYSAGHT

INSPIRATION TO BUILD BETTER

THE LYSAGHT PRODUCT SELECTION PROCESS

LYSAGHT WHOLE OF HOUSE SOLUTIONS

WHETHER YOU'RE BUILDING A NEW DWELLING, RENOVATING OR UNDERTAKING PROPERTY MAINTENANCE, THE LYSAGHT® RANGE OF STEEL BUILDING PRODUCTS OFFER PRACTICAL BENEFITS THAT OTHER MATERIALS JUST CAN'T MATCH.

Lysaght is Australia's leading manufacturer of rollformed steel building products. A business of BlueScope in Australia, Lysaght has been supplying inspirational and sustainable products for residential and commercial projects across Australia for over 150 years.

We are able to offer a diverse range of product solutions including roofing, walling, rainwater goods and fencing available through our branches, resellers and local hardware retail stores.

Fence, Screen & Gates

Profile: **ENSEAM® 265**
Finish: **Ironstone®**

SELECTING ROOFING, WALLING, GUTTERS & FASCIA

Across the exciting spectrum of residential architecture, the aesthetics, performance and versatility of LYSAGHT® steel roofing and walling profiles are proving invaluable in inspiring and giving form to exceptional designs.

Whether your home is contemporary or traditional in nature, the extensive array of LYSAGHT® products, in a myriad of materials, finishes and colours, offers you endless possibilities in bringing that design to life.

1 SELECTING A ROOFING OR WALLING PROFILE

Considerations

Style of your home

- Contemporary
- Hamptons
- Coastal
- Country
- Heritage
- Federation

Profile style and function

- Corrugated
- Rib and pan
- Flat underside
- Standing seam
- Interlocking panel
- Ribbed panel
- Weatherboard style
- Nailstrip

Pitch of your roof

Each LYSAGHT® roofing profile is suitable down to a certain minimum roof pitch, or slope.

2 SELECTING GUTTERS AND FASCIA

Considerations

- Style of your home
- Gutter profile and appearance
- Rainwater carrying capacity requirements for your location

3 SELECTING MATERIAL, FINISHES AND COLOURS

Considerations

The right material for your location

LYSAGHT® offers roofing, walling, guttering and fascia products in various materials, including standard COLORBOND® steel for most locations, specialist grades for challenging environments, and unpainted options like ZINCALUME® steel and Galvanised steel.

For extremely severe coastal environments and water-adjacent construction, LYSAGHT® offers products manufactured from PERMALITE® aluminium. LYSAGHT® offers warranties¹ for their products, and your builder or architect can help you choose the right material for your specific location.

Standing out or blending in

Whether you're looking for your home to make a bold statement or subtly blend in with its environment, LYSAGHT® roofing, walling, guttering and fascia can be manufactured in finishes such as COLORBOND® steel Matt or COLORBOND® Metallic steel. If you prefer colours that are light or dark, cool or warm, you'll find the perfect colour for your home from our range.

Distance from:	ROOFING		WALLING	
	Breaking surf of exposed marine	Calm marine	Breaking surf of exposed marine	Calm marine
ZINCALUME® steel	200m	100m	1000m	1000m
COLORBOND® steel	200m	0	800m	200m
COLORBOND® steel Matt	200m	0	800m	200m
COLORBOND® Metallic steel	200m	100m	1000m	1000m
COLORBOND® Coolmax® steel	200m	100m	Roofing only	Roofing only
COLORBOND® Ultra steel	100m	0m	500m	100m
SUPERDURA® Stainless steel	0m	0m	0m	0m
PERMALITE® aluminium	Over water	Over water	0m	0m

SELECTING FENCING & SCREENING

Whether you've just built a new home and want to add the finishing touches, or would like to lift the curb appeal of an existing home, a stylish new fence is the perfect way to do it.

1

SELECTING FENCE PROFILE AND HEIGHT

Considerations

Profile style, appearance and function

LYSAGHT® fencing is available in a range of shapes with different aesthetics. For a boundary fence where privacy is important, consider a fence with a solid infill sheet, such as NEETASCREEN®. Alternatively, if you're looking to screen areas of your home but would like light and air to filter through, choose a screen solution such as SLATSCREEN™.

Council or housing estate regulations

Many local government areas and housing estates have regulations enforcing a maximum fence height. Check with your local authority.

Other considerations

- Your neighbour's preference
- Need to match any existing fences

Aside from adding visual impact, a quality fence also provides privacy and added security for your greatest investment. It's the ideal choice when it comes to beautiful yet tough, low maintenance fencing.

2

SELECTING ACCESSORIES

Considerations

Decorative toppers

Most LYSAGHT® fences can have a topper of lattice or slats added above the primary fence panel as a decorative feature.

Gates

Lysaght offer a range of single and double gates for both personal and vehicle access.

3

SELECTING A COLOUR

Considerations

- The colour used on other areas of your house, such as your roof or walls
- Need to match any existing fences
- Your neighbour's preference
- Council or housing estate regulations

SELECTING A PATIO & CARPORT

With a LYSAGHT® patio or carport, you can choose from range of structure styles and designs to create the optimal solution for your home. All styles and designs

can be constructed as a freestanding patio or carport separate to your home or attached to your home for a seamless indoor/outdoor solution.

1 SELECTING A STRUCTURE TYPE

Considerations

Roof design

The roof design of your new patio or carport could seamlessly integrate with your home's existing roofline. Or make your patio or carport a feature with a combination pitched and flat roof design.

Dutch Gable

Flat Roof

Skillion

Gable End

Hip Roof

Attached or free standing

Our patios and carports can either be attached to your home for a seamless indoor-to-outdoor space, or built as a free standing design detached from your home.

2 SELECTING A ROOF PROFILE

Considerations

Underside appearance

For a flat, ceiling-like underside, choose FLATDEK® or one of our insulated panel options. Alternatively, profiles such as CUSTOM ORB®, TRIMDEK® and SPANDEK® can all be used for patios and carports.

Use of skylights and translucent roofing

Light up your patio or carport space during the day.

3 SELECTING A COLOUR

Considerations

- Selecting colours for the roof, beams, posts and gutters of your patio or carport
- The colour used on other areas of your house, such as your roof or walls

WHY LYSAGHT ONLY USES AUSTRALIAN COLORBOND® STEEL

COLORBOND® steel has been made in Australia since 1966 by BlueScope - Australia's largest steelmaker and a global leader in the manufacture of pre-painted steel.

Decades of Australian research and development have gone into creating a range of technologies that give genuine COLORBOND® steel its long lasting performance in Australia's harsh climate.

Renowned for its quality finish and durability, and backed by a material warranty¹ from BlueScope, COLORBOND® steel is one of Australia's most trusted building materials.

Colorbond®

SUSTAINABILITY

At Lysaght, we manufacture our LYSAGHT® steel building products range from 100% Australian-made metallic coated and pre-painted steel. These ingredient steel products are durable and resilient to Australia's harsh climate and their long life helps conserve resources and energy that may otherwise be invested in products with a shorter life span.

All LYSAGHT® steel building products contain recycled content and the steel in LYSAGHT® products is 100% recyclable. In some cases it can be reused without reprocessing, again saving on energy and resource use.

THERMAL EFFICIENCY

Many people know that the colour of your roof can make a difference to your cooling bill and no less than five of the colours in the COLORBOND® steel range qualify as solar reflective (light coloured) roofing under the Green Star Communities tool. But there's another way that COLORBOND® steel can help make your home more energy efficient. Every colour (except Night Sky®) in the standard COLORBOND® steel range features Thermatech® solar reflectance technology. Thermatech® technology is designed to reflect more of the sun's heat on hot, sunny days, which can mean less dependence on air-conditioning, plus reduced heat stress for your roof. The LYSAGHT® product range is available in the full range of COLORBOND® steel colours.

CORSTRIP® PROTECTIVE PLASTIC FILM

Some LYSAGHT® products shaped from COLORBOND® steel are delivered with a plastic film called CORSTRIP® to protect the product from damage during transport and installation. CORSTRIP® is made from 100% low-density polyethylene (LDPE) and is suitable for recycling.
