

Beekeeping Incursion

A unique and Engaging Incursion for Schools in Perth Western Australia

Bees are truly fascinating insects and are incredibly important for our ecosystem. Australia alone is home to 1,500 native bees and introduced bees European honey bees – the smallest is less than 2mm in length. We all know bees for their sweet gold liquid but there is a lot you may not know about them, for example, $\frac{1}{3}$ of the food we consume depends on the pollination of bees as bees are the most efficient pollinators on planet. Sticky Prick Bee Haven would like to help the younger generation by offering a unique introduction to the amazing world of bees. By giving your children a meaningful experience, they won't forget, watch your students step into the shoes of real-life local bee-keeper who shares his genuine passion for these fascinating insects in an interactive and informative session.

We Know Bees

Bee Educated & Sticky Prick Bee Haven was established in 2013 and is owned and operated by Roy Murphy. Roy is a bee researcher and at his apiary houses European honey bees (*Apis Mellifera* Italian bees).

With a passion for community engagement through beekeeping. Roy has had the opportunity to travel to numerous locations throughout Asia, including places such as Vietnam, Indonesia, Hong Kong, Thailand, Singapore, and Kota Kinabalu and travelled as far as Europe such as London, Paris, Amsterdam and to Scotland to study the art of insemination and grafting and to Dubai and Abu Dhabi to study and research different varieties of honey bees.

Roy has been running beekeeping workshops in schools, driven by the passion to promote an awareness of the importance of bees and pollination.
