# BEAUTIFUL OUTDOOR LIVING FOR LIFE

Spotted Gum Select Capped Composite Decking

## WHAT IS NEXGEN?

NexGEN Decking™ is an exceptionally low maintenance premium capped composite that assures you a beautifully tailored, splinter free surface that is easy to clean and will last for years.

Our decking never warps, splinters or rots and requires no sanding, oiling, sealing or staining. Stunning, rich and fade resistant colours require no ongoing maintenance other than the occasional clean.

**Could outdoor living possibly get any easier?** We doubt it.

We back up our claims with the industry's first 50 year Stain, Fade & Lifetime Performance Warranty

Graphite Select Capped Composite Decking

From the beauty of its dramatic colour tones and multiple wood grain patterns to the polish and protection of Permotech capping, NexGEN is the decking board for those who won't compromise.

# WHY BUY NEXGEN?

We can work off your plans or offer a full design service with great user-friendly DIY options.

For full installation service, we can arrange multiple quotes from qualified trades. You deal direct with the importer, meaning the best pricing possible.

We have been in business for over 50 years and offer free quotes.

## WE STAND BEHIND WHAT WE SELL

NexGEN Composite Decking is manufactured by Fiberon Composites in North America and sold throughout more than 30 countries in Europe, Asia, Central and South America.

- ✓ Made in USA since 1997
- ✓ No Maintenance
- ✓ No Nails, Easy DIY
- ✓ No visible repeats or easy-to-discern patterns
- ✓ Double sided reversible boards
- ✓ Made from recycled materials
- ✓ Multi-chromatic Australian hardwood colours
- ✓ Produced in an efficient, waste free process
- ✓ No toxic chemical preservatives
- ✓ Beautiful outdoor living, built for life!

Cabin Good Life Capped Composite Decking

## Good Life Capped Composite Decking

Good Life decking was once exclusively sold through retailers but has now been made available directly to the public.

This means Good Life decking offers an unbeatable combination of performance, durability and value for money for any decking project needs.

Now it has never been easier to elevate the style and sophistication of your outdoor space while keeping your budget intact.

Good Life decking features two solid Cabin and Cottage colours that closely resemble traditional painted and stained decking, with none of the back-breaking,

time-consuming manual labour that goes hand in hand with conventional timber or un-capped composite decking.

- › Cabin and Cottage colours
- › Authentic wood look features distinct grain patterns
- › R12 slip rating
- › 135mm wide x 24mm thick, capped on three sides
- › Available in 3.66 metre lengths
- › 25-Year Stain, Fade and Structural Warranty

Visit **[nexgendecking.com.au](https://nexgendecking.com.au)** for more details.

"I am very happy with the result. It's so easy to clean and it looks stunning. It transformed my yard. Best of all, it does not need any painting or staining and I have peace of mind that it will not fade or rot, all I need to do is to sit back and enjoy it!"

Goretti, New South Wales

## ESCAPES RANGE

White Oak Escapes Capped Composite Decking

### Escapes Capped Composite Decking

Escapes Collection Decking features subtle and dramatic streaks of colour, giving the boards a look that mimics tropical hardwoods. All colours have a protective outer layer on three sides and a solid composite core.

The Escapes Collection of Capped Composite Decking brings two new uniquely Australian colours to our range.

Blackbutt is a versatile timber in nature and is renowned for its strength and application versatility. Our capped composite is no different. With colour variations from light to dark brown and a warm, nutty hue, this board will suit many domestic and commercial decors.

White Oak hardwood is strong, beautiful, easy to work with and represents exceptional value. Again, our capped composite decking is no different to its hardwood namesake. White Oak decking is fast becoming our most popular colour.

Our capped composite mimics natural timber in colour and durability, not maintenance.

Escapes Collection of Capped Composite Decking is available in:

- › Blackbutt and White Oak
- › 3.66-metre lengths (reduces waste, easier to handle)
- › 135mm wide x 24mm thick

*"Due to the harsh weather conditions in Far North Qld the majority of our clients want low maintenance homes. NexGEN Decking ticks all the boxes. The final outcome of the job was great! We were happy and the clients were extremely pleased. We have no doubt that we will be using NexGEN Decking again in future jobs"*

**Higham Building Group, Queensland**

Blackbutt Escapes Capped Composite Decking

## KEY PRODUCT FEATURES

 FADE RESISTANT	 SPLINTER RESISTANT	 RECYCLED CONTENT	 ULTRA LOW MAINTENANCE	 SUSTAINABLE
 STAIN RESISTANT	 SCRATCH RESISTANT	 MOULD RESISTANT	 WEATHER RESISTANT	 TERMITE RESISTANT

Take time to unwind with Escapes Collection decking. Perfect for hosting neighbourhood gatherings, enjoying a summer dinner with your family or relaxing outside after a long week.

The Escapes Collection offers unbeatable value and durability for any decking project needs.

- › Authentic wood look features distinct grain patterns.
- › Escapes Collection features multi-tonal colours that resemble exotic hardwoods.
- › Composite construction prevents splintering, cracking and decay.
- › The three-sided cap layer resists staining and fading.
- › Low maintenance and easy to clean.

Graphite Select Capped Composite Decking

## Select Capped Composite Decking

Fibron Select range of Capped Composite Decking are reversible by design. Our Select Range of composite decking has been developed using our unique matte surface with our proprietary special low-gloss formulation and micro-texturing process.

**Our Select Collection offers the most natural look and feel, with an Australian colour palette that is earthy and rich.**

There are no artificial colours or brash streaking here. Instead, the shades are as authentic and naturally appealing as their namesakes: Graphite, Jarrah and Spotted Gum.

Select Collection of Capped Composite Decking is available in:

- › Jarrah, Spotted Gum and Graphite
- › 3.66 metre lengths (reduces waste, easier to handle)
- › 137mm wide x 24mm thick
- › Double sided boards

Equally impressive, the Select Collection boards feature subtle, multi-tonal streaking for added depth and visual impact and are manufactured to have more random, natural graining than you'll find with other deck boards.

*"I have found that your NexGEN product is absolutely fantastic. We had it laid months ago and it still looks brand new. There is no fading or warping and has stood the test of time as the kids ride their bikes and scooters on the decking and has not made any marks or scratches. I am confident this product will still look brand new in many years to come."*

**Joanne Whitchurch, Western Australia**

Jarrah Select Capped Composite Decking

## KEY PRODUCT FEATURES

 FADE RESISTANT	 SPLINTER RESISTANT	 RECYCLED CONTENT	 ULTRA LOW MAINTENANCE	 SUSTAINABLE
 STAIN RESISTANT	 SCRATCH RESISTANT	 MOULD RESISTANT	 WEATHER RESISTANT	 TERMITE RESISTANT

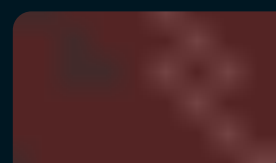

### There are no visible repeats or easy-to-discern patterns.

Of course, composite decking is an outdoor product, so we couldn't sacrifice durability for beauty. And we didn't.

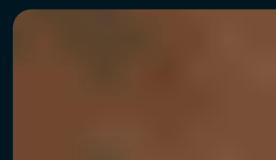

The Select Collection features our patented PermaTech® surface material on all four sides.

This veritable **"suit of armour"** gives the boards exceptional resistance to staining, fading, insect infestation, and decay. That means, unlike your typical timber or cheap composite deck, NexGEN Select capped composite decking won't stain, fade, splinter, crack, or rot.

# CLADDING RANGE

Spotted Gum Select Capped Composite Cladding

## Select Capped Composite Cladding

Fibron capped composite cladding is a very high performance composite, which boasts very minimal maintenance. Available in three striking, multi-tonal colours that emulate natural hardwoods.

Capped Composite Cladding is available in:

- › Jarrah, Spotted Gum and Graphite
- › 3.66 metre lengths
- › 137mm wide x 24mm thick
- › Double sided boards

Our Capped Composite Cladding delivers a range of benefits not found with wood, fibre-cement, or other common materials.

A solid wood-composite core prevents splintering, cracking, insect infestation, and decay. The four-sided, patented PermaTech® cap layer delivers exceptional stain and fade resistance.

Fibron Composite cladding is easy to install and never needs painting, staining, or refinishing, so long-term costs of ownership are significantly lower, too.

Visit [nexgendecking.com.au](https://nexgendecking.com.au) for more details.

*"We visited the NexGEN display booth at the Melbourne HIA Home Show this year, were impressed with the product on display and made the call to have the deck installed to refresh our courtyard. Tony has done a great job, the deck looks amazing and we look forward to enjoying the new outdoor living area"*
