

Beesantify® Skincare Routines

Nourishing Skincare Routine

For dry, mature and/or blemished skin. Our Nourishing Skincare Routine uses natural active ingredients that can deeply nourish and smooth the skin for a radiant and healthy appearance.

Balancing Skincare Routine

For normal, oily and combination skin. Our Balancing Skincare Routine balances natural sebum levels, minimising the appearance of enlarged pores for a shine-free, smooth complexion.

Pre-cleanser and makeup remover for all skin types

Honey Double Cleansing System

1

Purifying
Oil
Cleanser

2

Gentle
Honey
Cleanser

A unique two-step combination of our Purifying Oil Cleanser and our Gentle Honey Cleanser. The purifying pre-cleanser gently removes makeup, sunscreen and impurities with its natural blend of rare plant oils and propolis extract. Follow up with our Honey Cleanser for a gentle exfoliation that accelerates cell turnover, improves skin tone and removes any lingering impurities without stripping or drying your skin.

Which Skincare is Right for You?

the power of Honey

Honey is one of nature's most respected skin remedies.

Unique to Western Australia's *Eucalyptus marginata* trees, jarrah honey has one of the highest antioxidant and antimicrobial activities in the world and has been used extensively in skin healing therapies.

Jarraah honey contains a special active ingredient – hydrogen peroxide that makes it up to 50% more effective than Manuka honey against unwelcome microbes and dangerous pathogens.

We pride ourselves on being a value-driven business that is ethical and cruelty-free. Our ingredients are sourced locally and responsibly.

ALL BEEAUTIFY® PRODUCTS ARE FORMULATED WITH:

- no mineral oils • no phthalates • no artificial colours
- no parabens • no triclosan • no EDTA • no silicones • no harsh detergents • no PEGs (polyethylene glycols)

Our Promise to You

We believe that how a product is made, matters.

As part of our ongoing commitment to ethical and sustainable business practices, we are also dedicated to cruelty-free beauty so that you can feel great while you look great.

When you choose our products, you are supporting an environmentally responsible way of doing business. Our natural skincare products are made in-house with honey that is ethically harvested from our own hives and from the hives of other like-minded local beekeepers.

Our ingredients are carefully chosen based on publicly available scientific data. We believe in complete transparency and in providing our customers with high-quality skincare products that we love to use ourselves.
