

Your vision.

Your dream.

Made better.

GreenMount Homes

Every GreenMount home starts with your vision of the home that would be perfect for you.

That's how the story should end too. With a home that you absolutely love.

A dream home... a dream experience

When you're ready to move into a lovely new home of your own, talk to us.

If you're looking for a place to live, as well as a beautifully designed and well-built home, let us show you our house and land packages.

Or if you simply need a good plan and a builder for a home to build on land you already own, we have some wonderful modular designs for you to make your own.

Then again you might already have your own plans drawn up, and you need a builder to partner with. Talk to us about how we can make your dream come true.

You chose GreenMount – well done you.

We are a family-owned business, building homes that families love to live in. From the moment we meet you, we'll be listening.

As we work through the build, we'll be communicating. You'll own the process as well as owning the lovely home that we create for you.

House and Land Packages

We have a variety of sites in sought-after locations, where we can build the home that's everything you're looking for.

Let us show you the plans, and the ways you can make one even better for you, your family and your lifestyle. There are lots of ways you can make it your own, and we look forward to helping you create a home that is all about you and your style.

Modular - make it yours

Modular designs are becoming more and more popular, not just because they help keep the cost of building down. You can see all the designs for yourself, in one of our show homes.

The house types have been carefully designed to balance functional requirements with user experiences, then tested and improved project by project. Once you've made your choice, you can make the little changes that will make your home perfect for your lifestyle.

Build to plan

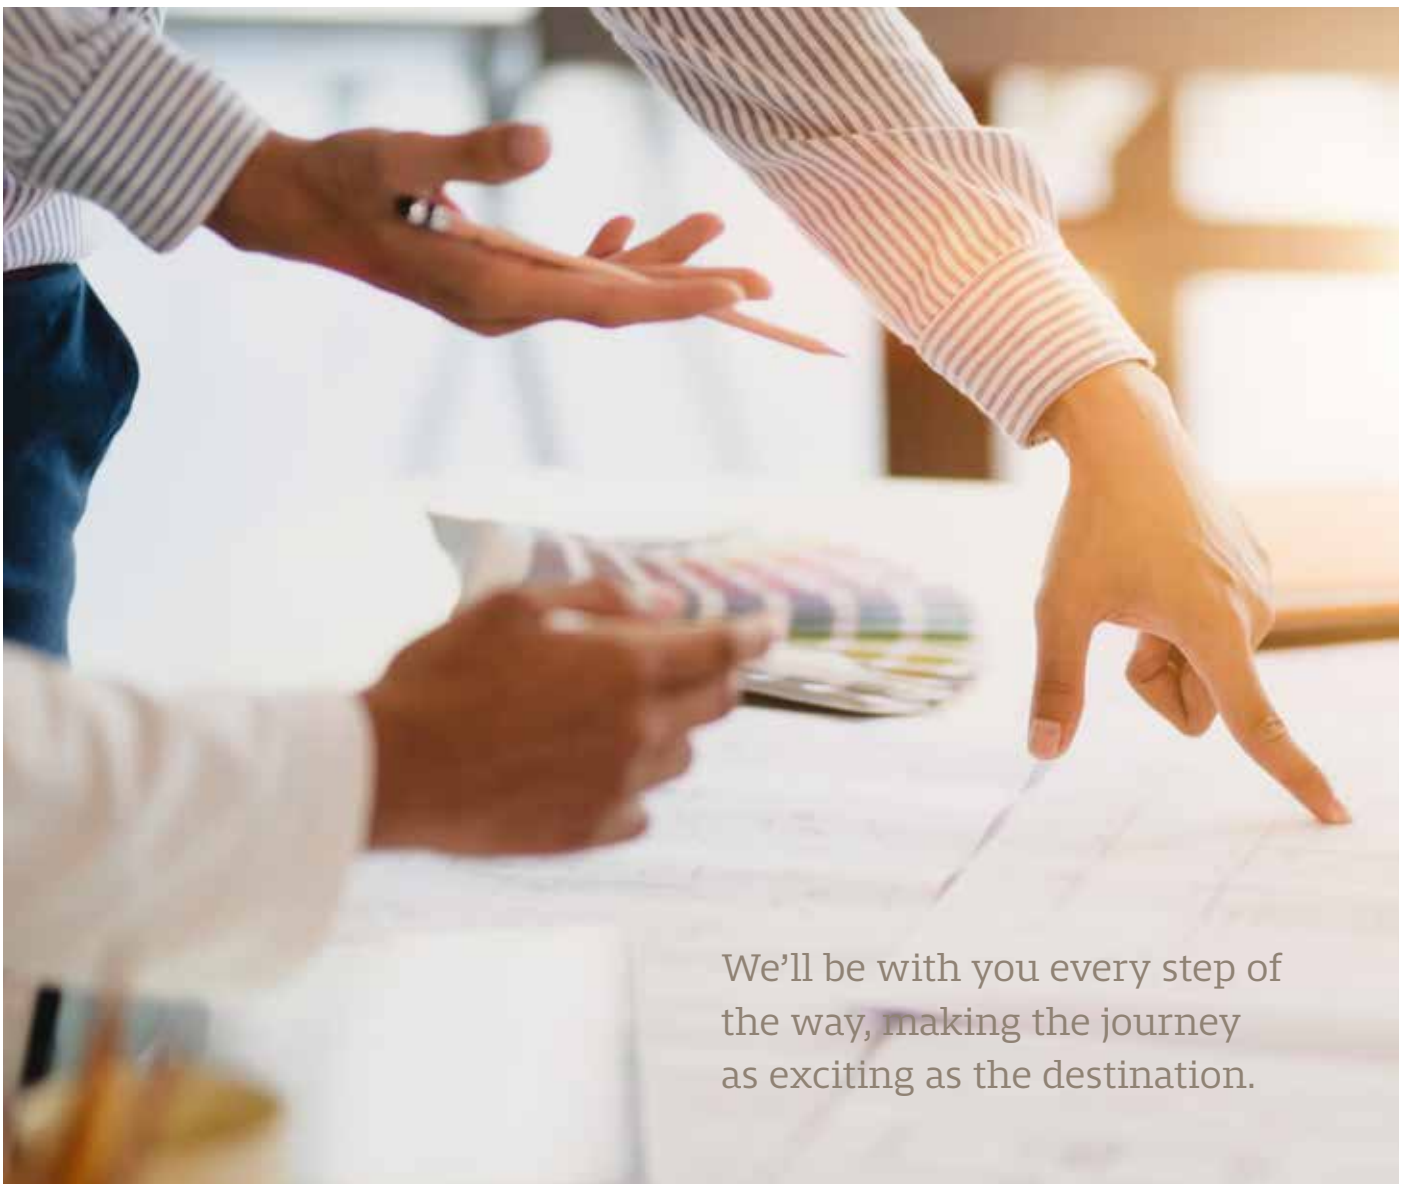

You've had your dream home drawn up – now you need a builder to make the dream come true. We will partner with you, working together to create exactly what you had in mind, down to the last detail.

Built on Partnership

A beautiful home is always the result of great minds working together.

We take pains to listen to you, not just at the beginning of the project when you tell us what you have in mind, but right through the journey.

We'll keep you informed every step of the way, and make sure you're happy as the project progresses. The secret to working well together is communication, and that's something we pride ourselves on.

We'll be with you every step of the way, making the journey as exciting as the destination.

Built to last

GreenMount Homes employ highly experienced builders who take great pride in their workmanship and the quality of the finish. The high level of specification assures you that your home will be a pleasure to live in for years.

We are accredited to several professional bodies, who have stringent standards. Meeting those standards ensures we deliver a lifetime of value, protecting your investment.

Quality design

To GreenMount, quality design means every design detail is an expression of your vision and dream. The details are as important as the big things.

When you choose GreenMount, you gain all our knowledge, experience and passion for houses. These can be seen in the design of your home, right down to the last detail.
