Made by GoodWe Chosen by GE

Following a rigid and thorough selection process, GoodWe has been selected as the exclusive solar inverter licensing partner for GE's global sales. GoodWe is delighted to enter into this collaboration, which validates the company's status within the solar industry, both for the quality and reliability as well as the technological advancement of its inverters.

Thomas Buccellato, Senior Managing Director, GE Licensing stated, "Our analysts knew we needed world-class products, as we will be targeting the high end of the market where end-user loyalty to the brand also comes with high expectations. GoodWe is the right choice."

Company Award & Ranking

Reliable Partner in Large-scale Projects 2021

DNV issued a review report of GoodWe for its inverter technology and reliability. GoodWe is recognized as a bankable brand with higher product reliability by DNV. Concluded from the report, DNV views GoodWe as a well-established manufacturer of power conversion products with a successful history in design and manufacturing.

Top Quality and Great Lifespan 2015-2021

GoodWe is the sole inverter brand that has won the TÜV Rheinland All Quality Award for 7 consecutive years (2015-2021). More than 10 products for residential, commercial and industrial sectors are all proven to be reliable and have a long lifespan.

Energy Storage Veteran 2021

As an innovation-driven company diving deeply into the energy storage sector for more than 10 years, GoodWe was distinguished as World's Top 3 Storage Inverter Supplier & top-ranked by the authoritative SPI Test. The company boasts the most comprehensive portfolio in the industry, providing more than 20 energy storage products featured with advanced technologies such as UPS-level switching, 100% unbalanced output, and smart-load control.

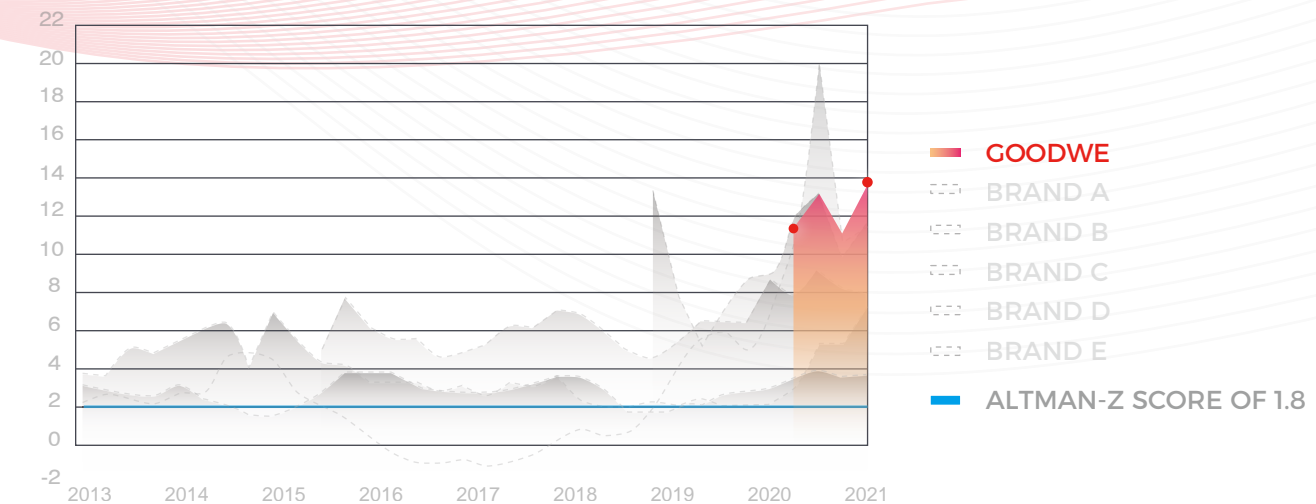

Lead the Way on Sustainability 2022

GoodWe has been awarded a Silver Medal by EcoVadis in 2022, which places it in the top 14% of the 100,000-plus companies across 175 countries that EcoVadis has rated. The award recognizes GoodWe's strong Environmental, Social, and Governance (ESG) performance, and reinforces the company's commitment to sustainable practices.

The Most Financially Stable Inverter Company

GoodWe's positive operating performance and solid potential over the period has landed it the highest Altman-Z score among PV manufacturers on BloombergNEF's 2021 report, displaying its strong financial health and bankability.

GoodWe Phase II Manufacturing Base in Guangde, China

Devote resources & leverage strengths to fulfill **SDGs**

GoodWe has joined the UN Global Compact and is dedicated to fulfilling corporate social responsibility and practicing the concept of sustainability. GoodWe Solar Academy was established as a pioneering open platform for knowledge sharing and communication in terms of PV industry, products, and applications to all people, aiming at exploring more possibilities within and beyond the industry.

Pursue Carbon Neutrality

GoodWe strives to build low-carbon, green factories in a sustainable manner. With PV systems installed, 2.8 million kWh of electricity can be generated for GoodWe's new manufacturing base every year, which is equivalent to saving 900 tons of standard coal and reducing 2,247 tons of carbon dioxide emissions every year. In the future, GoodWe will have more eco-friendly buildings brought into use. Being designed and constructed to be as eco-friendly as possible, GoodWe's new headquarter is expected to deliver in 2024. This building will be operated with the self-developed Smart Energy Management System (SEMS).

EcoSmart Home

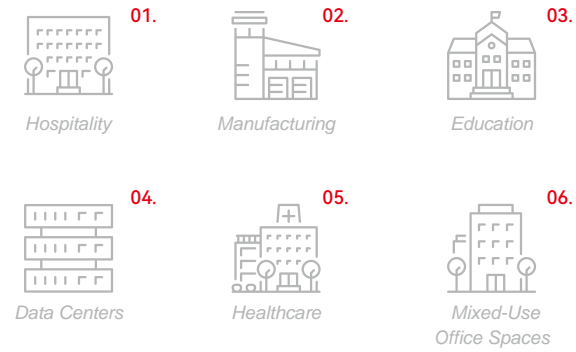

EcoSmart Home

Green. Smart. Effective

GoodWe EcoSmart Home is a range of smart solar-based technologies that meet your home's unique power needs in an eco-friendly, sustainable way. From power output, to storage, to management, it's time to redefine green energy your way.

INDUSTRY APPLICATIONS

EcoSmart Commercial

GoodWe EcoSmart Commercial offers a variety of energy storage solutions for C&I applications. A proper GoodWe commercial ESS will effectively help manage your energy use, reduce energy costs, and ensure reliable power supply for your business.

“

I believe in GoodWe's genuine efforts to make the planet more sustainable. There's so much passion and dedication behind the creation of every product the brand offers, it's really an honor to be part of such an innovative organization. Every day I look forward to contributing to a greener future with GoodWe. It's truly the most rewarding feeling.

Val.Fuentes

— — Senior Marketing Specialist, GoodWe USA Inc.

With an extensive background in electronic engineering, joining GoodWe was the next step big step in my career. Being a part of the solar energy industry has truly been an experience like no other. It is a good feeling to know you come to work with such influential people and are making a change in the world. Seeing is believing and here at GoodWe, we believe in what we do.

Luis Fariza

— — Technical Manager Pre-Sales & Services, GoodWe Europe

“

Proud to be part of an organization that encourages female empowerment and encourages women's economic development through initiatives that are in its DNA. At Goodwe, there are no gender boundaries if there is dedication to what we set out to do.

Vanessa Yurie

— — Marketing Director, GoodWe South America

GoodWe is continually striving towards the future, with a product portfolio that is ever evolving & growing. We continue to be a leading innovator in the smart energy space with a full suite of eco smart solutions for home and business. We are dedicated and proud to play a key role in accelerating the energy transition.

Dean Williamsson
