Crafted to the Highest Standards

Introducing the latest and greatest off the shelf louvre systems. An extension of your home designed to provide shade and comfort in a cool and contemporary way. Experience year-round versatility at its finest.

Accompanied by a 5-year warranty (Ts&Cs apply), ShadeTec has been designed to withstand New Zealand weather conditions, ensuring you can enjoy it for many years to come.

High-grade AkzoNobel powder-coated 6063-T6 aluminium.

120km/h wind rating.

Achieve optimal sunlight exposure and improved airflow by moving the louvers accordingly.

With a wide 100° opening angle, you can enjoy all those beautiful summer sunsets.

For maximum rain protection, the louvres seamlessly close ensuring effective disbursement of water through the internal gutter system.

What makes ours so great?

Motorisation & lighting

Thanks to our smart lighting and louvre control system, you can change the louvre position or lighting remotely at the touch of a button.

Internal Gutter System

ShadeTec ensures you stay dry with our latest internal guttering system. Water is actively disbursed via the discrete internal guttering system and out through the posts.

Double Blade Louvres

Our meticulously designed louvers interlock together, shielding against rain and sunlight while providing a sleek, flat, and flush look.
