Solar for Home

SolarBright has the best technology from the market leaders.

Solar for Business

The best business investment - save your business thousands.

Solar Panel and Battery Experts

- You can save thousands off your power bills
- The system will pay for itself
- Over 13,000 installs since 2008
- The best solar technology from LG, Tesla, SolarEdge, SMA, Fronius, Max Power Solar, Hyundai and Sungrow
- Free in-home consultation
- Store excess power generated in a battery for use at night

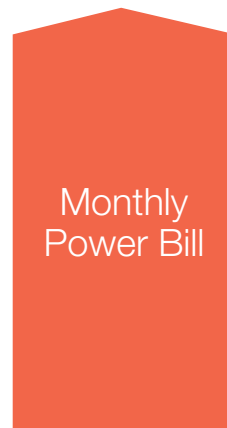

Why Solar for Business?

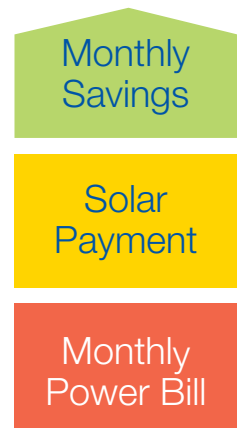

- Positive cash flow - the savings typically cover repayments
- No new costs - pays for itself
- 100% tax deductible repayments
- Permanent cuts to your electricity cost
- Free business consultation

For each business we assess your power bill and design an appropriate solar power system. We can then estimate your return on investment and the savings the system will generate for you.
