Fire

HEATSCOPE[®]

blinde.

Since 2004, EcoSmart Fire has forged its position as a world-leader in the design, innovation and manufacture of bioethanol-fuelled fireplaces.

EcoSmart Fires are embraced by design professionals and consumers alike, and its designs are found in residences, leading hotels and resorts, commercial premises and hospitality venues around the globe. Behind the stylish façade is a sophisticated heating system that uses the cleanest, most efficient fuel source on the market. EcoSmart Fires are the most comprehensively safety-tested and listed by third-party laboratories.
