### COMPLETE SUSTAINABLE SYSTEMS

Make your heating source multitask for you by integrating your heating, cooking and hot water into one!

### HYDRONIC HEATING

Powered by wood, gas or electricity, hydronics are efficient, reliable, safe and environmentally friendly.

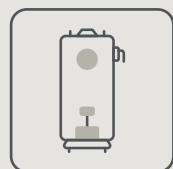

### HEAT PUMPS

The latest technology in higher efficiency home heating and domestic hot water.

### SOLAR HOT WATER

Reduce your hot water energy costs by up to 80%, while lowering your carbon footprint.

### HOT WATER TANKS

Bespoke stainless steel mains pressure tanks with electric, wood, solar, heat pump or gas options.

**WISELIVING** is Australia's only independently-owned and operated manufacturer and importer of sustainable heating, cooking and hot water systems.

For more than 40 years, the Black Family has invested their time and energy into developing products and systems that hold true to their ethos of "Respect for People and the Environment".

As a manufacturer of sustainable slow-combustion stoves, heaters, boilers and solar hot water systems, we are proud that our products are handmade by experienced craftsmen with a quality and individuality not achieved by mass production. You can be guaranteed of strength and reliability for the long term.

Our experience and expertise in the design and supply of integrated solar, hydronics, hot water and wood-fired systems are second to none in Australia. Our international partnerships allow us to source cost-effective, complementary products that meet our quality and technical requirements from the world's leading manufacturers.

When you invest in a WISELIVING product or system, you are investing in a sustainable, bespoke solution that will save you money and support a sustainable future.

## Thermalux

STRENGTH AND RELIABILITY FOR  
AUSTRALIAN CONDITIONS

### SLOW COMBUSTION COOKING

The Thermalux range of wood stoves, cookers and outdoor ovens guarantees strength and reliability.

### SLOW COMBUSTION HEATING

Astounding versatility and heat output, the Christo Grand Heat range takes wood heating to the next level.

### WOOD AND GAS BOILERS

WISELIVING manufactures the largest range of hydronic boilers in the Southern Hemisphere.
