2400 SAUNA MODEL

Please refer to our website for most up-to date pricing.

Over the years, Sproutwell have often been asked to custom make/design structures to go over pools and spas or source products to be able to complete outdoor entertaining spaces for our customers. Due to the increased interest and the fact that glasshouses are now being used for more than just growing, we decided in 2017 to launch a new arm of of Sproutwell known as 'Cedar Hot Tubs Australia.'

Bringing these two awesome products together has enabled us to offer the market a great option for outdoor living spaces. They are cost effective (no need for cranes as they can be built on site or DIY)
