DREAM BIG WITH DREAMCOURTS

COURTS

MARKET LEADERS IN
HIGH PERFORMANCE

SPORTS COURTS

WWW.DREAMCOURTS.COM.AU

**Official
Court Partner**

The National Basketball League (NBL) is passionate about the growth of basketball in Australia.

After a thorough search they determined DreamCourts™ was the market leader in Asia Pacific based on our company's professionalism, level of product development, high product quality and support offered.

We continue to have a strong and aligned working relationship having successfully partnered on national installations across private, public, schools and commercial facilities and are enjoying the realisation of some exciting projects including FIBA accredited indoor timber courts that will see the NBL playing professional games on the DreamCourts solution.

WHY CHOOSE DREAMCOURTS?

3D Render

Transforming your vision of a sports court into a lifelike representation, allowing you to visualize the final result before construction begins.

2D Design Service

We are committed to understand your vision and transform it into a practical, visually appealing design. Our detailed layouts for sports courts are tailored to meet your exact specifications, ensuring optimal dimensions and layout.

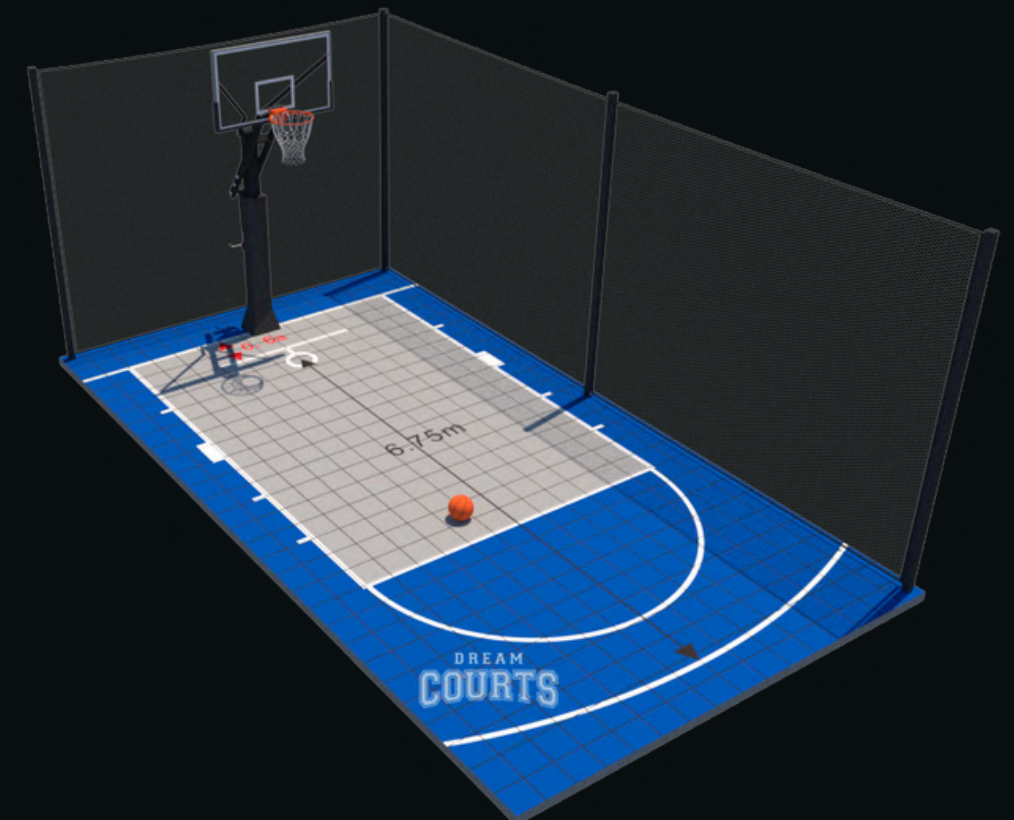

Concrete Plan

Our Concrete Plan provides a detailed blueprint for the installation of your sports court or DreamHoops. We determine the ideal dimensions and placement, ensuring optimal space utilization and guaranteeing accuracy and adherence to standards.

Augmented reality (AR)

Our Site Inspection team can bring the entire court experience to your backyard. Using AR technology, we can walk you through different court orientations, showcase various colour combinations, and explore available accessories.

Double Anchor Point Technology

Introducing our revolutionary **Double Anchor Point Technology**, a game-changer in sport court tile design. Unlike other companies that either lack anchor points or offer single anchor point systems, our innovative technology delivers **unmatched stability**, ensuring your court remains **solid** and **secure** under the most intense gameplay.

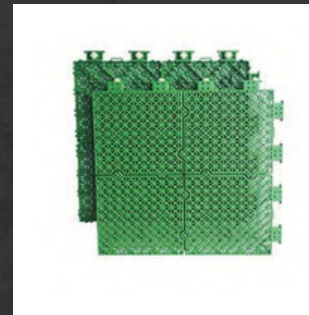

This design enhances your court's performance, providing **maximum support** and **preventing shifting**. With two anchor points strategically placed per tile, our technology resists tile cupping compared to single anchor point designs.

DreamCourts' tiles are uniquely designed with expansion joints throughout the tile to resist thermal expansion and increase the flexibility. This innovative design helps prevent tile deforming from weather changes, setting us apart from our competitors.

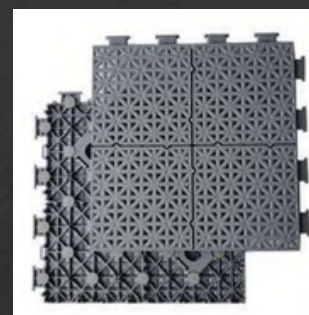

TILE FEATURES

Both our tile products are UV resistant and Anti-fade

Elite Pro II

- Small Ball Sports & Basketball
- Premium Bounce Quality
- Elite Grip Rating
- 10 Year Warranty
- Injury Prevention Technology
- Up to 30% Noise Reduction
- Double Anchored
- Double Cushioning

Elite X II

- Large Ball Sports & Commercial
- Industrial Cushioning
- 99% Bounce Performance
- 15 Year Warranty
- Elite Grip Rating
- Up to 35% Noise Reduction
- Double Anchored

Elite Pro II - Multi Sports

The Elite Pro II tiles stand out for their exceptional grip rating, providing athletes with a secure footing during play. These tiles also boast double cushioning, which not only enhances comfort but also helps prevent injuries by absorbing impact.

Additionally, the tiles are backed by a 10-year warranty, reflecting their high quality and durability. This combination of features makes the Elite Pro II tiles a top choice for those seeking both value and quality in their sports court surface.

Elite X II - Large Ball Sports

Our Elite X II tiles are the ultimate choice for basketball enthusiasts seeking top-notch performance. These tiles offer superior grip, anti-theft and movement features, ensuring a secure court that stays in place during intense games.

With a remarkable 99% bounce performance, industrial cushioning, and a 15-year warranty, the Elite X II tiles deliver durability, consistency, and peace of mind for players who demand the best from their basketball courts.

HOOPS

DreamHoops premium rings are Australia's **number 1 choice** when it comes to practicing like a pro.

We offer three different DreamHoop options, including adjustable ring system, fixed height ring system and wall mount ring system.

With every DreamHoop purchase comes:

- Limited lifetime warranty on our entire Pro Range
- All-weather hot dip galvanized steel
- Elite Rim comes standard
- Regulation thickness tempered glass backboard
- Dunk approved
- UV coated net
- Smooth lift assist technology

More importantly, they are all

DUNK APPROVED!!

DreamHoop Wall Mount Ring System

DreamHoop Fixed Height Ring System

Our adjustable systems offer a height range of **5.5ft -10ft**

DreamHoop Adjustable Ring System

Netting and Accessories

Now that you've got your court and hoop system sorted, accessorise with our custom Boundary Nets and Hoop Lights.

We have **soft netting**, which is **retractable** and designed to **mitigate ball overshoot**, ensuring a more enjoyable playing experience.

Additionally, we offer **cyclone fencing** to meet your security and containment needs, engineered to **prevent accidental falls**.

And for those who like to stretch the afternoon, our hoop lights keep the game in focus well after dark!

We have accessories to suit any space and court. So Gear Up!

PROJECTED COSTS

At DreamCourts we specialise in custom design.

All of size, shape, colour and accessories can be created and constructed to your dream plans. To help you get started and assist with budgeting, we have provided some example costings for our unique interlocking tile systems in the table on the right.

These prices include full design service, tiles, line markings and fixings but are exclusive of installation and site preparation (including concrete).

Quoted price also does not include freight costs, these can be estimated for your location upon request.
