Bali (Alang Alang) Thatch

Bali Thatch, also called Alang Alang Thatching Grass, is grown on the Islands of Bali and Lombok.

Our A Grade, Natural String thatching comes in 2.5m Lengths.

The thatching grass is woven around a bamboo batten, meaning it can easily be stapled or nailed onto existing or customised structures.

- 100 % waterproof with correct spacing and installation.
- Natural insulation offering maximum UV protection.
- Up to 10 degrees cooler than a metal roof in summer.
- No condensation – making it an ideal application for alfresco areas, and spas. Long lifespan and durability.

Recommended Thatch Spacing	75mm or 65mm
Recommended Minimum Roof Pitch	30 degrees
Recommended Rafter Spacing	500 – 650mm

African (Cape Reed) Thatch

Cape Reed, indigenous to South Africa, is a renewable resource where harvesting promotes growth.

This African Cape Reed is manufactured into 800 x 450 mm flexible tiles which can be clipped, stapled, or nailed onto existing structures for quick, no-fuss installation.

- 99.8 % waterproof, and wind-resistant
- Natural insulation offering maximum UV protection.
- Up to 10 degrees cooler than a metal roof in summer.
- No condensation – making it an ideal application for alfresco areas, and spas.
- Long lifespan and durability.

Recommended Thatch Spacing	300mm
Recommended Minimum Roof Pitch	30 degrees
Recommended Rafter Spacing	500 – 650mm

Ironwood Shingles

Red Cedar Shingles

Shingle Tiles

Ironwood Shingles are a traditional roofing material in Indonesia. This type of roofing first originated in Kalimantan, Borneo, where it has been used for hundreds of years for housing, due to its strength, aesthetic appeal and weather resistance. Ironwood Shingle dimensions are 570 x 75 mm.

Western Red Cedar Shingles are widely used in Canada, North America, and Europe. Cedar shingles are 450 mm in length and vary from 75 -200mm in width.

Designed to withstand our extreme climate, all our shingles are 100% waterproof when installed correctly, with a life expectancy of over 20 years.

- 100% waterproof
- Require minimal maintenance
- Mould & mildew resistant
- Termite resistant
- Long lifespan and durability

Recommended Tile Spacing	150mm
Recommended Minimum Roof Pitch	30 degrees
Recommended Rafter Spacing	500 – 650mm

Half Bamboo Panels

Bamboo Screening Panels are an ideal solution to instantly transform tired, dull, or unsightly areas, as well as a great way of adding extra height for privacy. They can easily be attached to all types of fences, walls, sheds, etc.

As a direct importer, we can ensure our Bamboo Panels offer the best value and quality for our clients.

Our Bamboo Fencing Panels are long-lasting and easy to install, and from only \$49.95 each, they are incredibly affordable.

- Flexible and Durable.
- Environmentally Friendly as bamboo is a renewable resource.
- Quick and easy to install.
- A cost-effective way to transform an outdoor area.

Bamboo Diameter 50 – 70mm

Whole (Jati) Bamboo Panels

Whole bamboo panels make an ideal screening solution where both sides of the panel will be visible. Our whole bamboo panels come in a 1.8m and 2.1m height in both smoked and natural colour

- Double sided bamboo screening
- Environmentally friendly as bamboo is a renewable resource.
- Quick and easy to install.
- A cost-effective way to transform an outdoor area.

Bamboo Diameter 30 – 50mm

Natural Surface Lining

Synthetic Surface Lining

Surface Linings

Our surface linings are a great option for lining walls and ceilings in an authentic Balinese style.

Our **natural** surface lining comes in either:

2.0m x 1.0m or 2.0m x 2.0m

Our **synthetic** surface linings are available in both 2m and 3m widths (maximum length 15m per roll).

These rolls can ordered and cut to the lineal meter.

One Thatch - Synthetic

One Thatch Palm in 'Weathered' is designed to reproduce the rugged charm of natural fan palm leaf thatching to the most delicate detail.

Weighing a fraction of traditional synthetic thatch products and designed with pre-bend folding lines, even novice DIYers will find the installation to be easy and effortless.

- 20 years manufacturer's warranty.
- Wind and weather resistant.
- 100% recyclable.
- Maintenance free.
- Fast, easy installation.

One Thatch is also available in a Fire Retardant Option with a class A fire-resistant classification tested and certified to ASTM E 108

01. Fire Retardant

Test: GB 8624 / ASTM E108

Certified by: SGS & INTERTEK

Result: ONETHATCH is tested and certified with class B1 fire-resistant (GB8624) and class A fire-resistant (ASTM E 108)

02. Weather Resistant

Test: ISO4892-3 (2000hrs)

Certified by: TÜV SÜD

Result: ONETHATCH is chemical and UV resistant, with excellent color-fastness.

03. Wind Resistant

Test: ASTM D3161

Certified by: TÜV SÜD

Result: ONETHATCH can withstand category 5 hurricane winds of up to 200km/h.

04. Mold Resistant

Test: ASTM G 21-96

Certified by: INTERTEK

Result: ONETHATCH shingle is highly mold, rot and insect resistant.

Viro Thatch - Synthetic

Viro Thatch Synthetic Bali tiles are an excellent long lasting alternative to both natural African & Bali Thatch.

Viro thatch is manufactured into a 780 x 600mm flexible tile, which can be clipped, stapled, or nailed onto existing structures for quick, no-fuss installation.

The Viro thatch sub-tiles are 780 x 600mm, for use over an existing roof structure such as colorbond to provide that great aesthetic look of thatch.

- 95% waterproof, and wind-resistant.
- Natural insulation offering maximum UV.
- No condensation – making it an ideal application for alfresco areas, and spas.
- Long lifespan and durability.
- 15 years manufacturer’s warranty

Recommended Thatch Spacing	300mm (Tile) 200mm (Sub-Tile)
Recommended Minimum Roof Pitch	30 degrees
Recommended Rafter Spacing	500 – 650mm

Viro Thatch – With Waterproof Membrane

Viro thatch tiles are now available with an interlocking waterproof membrane to ensure 100% waterproofing of your Bali hut.

They are suitable to be nailed onto timber batten, and do not include clips for galvanised rod installation.

- 100% waterproof, and wind-resistant.
- Natural insulation offering maximum UV.
- No condensation – making it an ideal application for alfresco areas, and spas.
- Long lifespan and durability.
- 15 years manufacturer’s warranty

Tegola Master Asphalt Shingles

Master shingles are the result of the latest research and development into A grade asphalt roofing materials, to guarantee durable high performance. Quality materials, combinations of overlapping layers and a choice of colour shades allow creating roofs with a natural look and perfect waterproofing.

The process of installing asphalt shingles, begins with plywood sheeting to cover the roof, followed by 'Feltbar' a one-way, breathable, membrane. The shingles are then fastened to the sheeting using flat-headed roofing nails.

Consider using Tegola Master Shingles to bring a stylish textured finish to existing structures and will revitalise your outdoor area.

Recommended Min. Roof Pitch	10 degrees
Recommended Min. Plywood Thickness	12mm
Master Pack Coverage (sqm)	2.0m ²

Tegola Premium Asphalt Shingles

Simplicity is synonymous with style if you talk about Premium Rectangular. The historic rectangular shaped bituminous shingles continue to be current.

The Premium range offers a uniform rectangular design with colour options to match your existing home colour scheme.

Recommended Min. Roof Pitch	10 degrees
Recommended Min. Plywood Thickness	12mm
Premium Pack Coverage (sqm)	3.05m ²
